General information

Be part of EREC 2011, the fourth edition of Europe's leading Renewable Energy Policy

The biennial conference organised by

EREC (European Renewable Energy Council) has grown ever since its first edition in 2004 and has become Europe's major occasion for exchange and interaction between industry, research and policy

European and national policy makers, industry leaders and research experts will meet at the heart of European decision making to discuss market trends, legislative developments as well as future energy strategies.

EREC 2011 will:

-

Outline energy pathways to 2050

-

Debate the implementation of the RES Directive

Discuss Europe's infrastructure needs
-
Emphasise the key role of local actions
Provide a global perspective on emerging markets
Trovido a global poropoditvo on emerging markete
-
Feature the perspective of investors and developers
